

IntuiLab releases IntuiFace Presentation 2.5, the fastest and easiest way to create rich multitouch presentations!

**INTUIFACE
Presentation**

IntuiLab introduces a new release of IntuiFace Presentation, the premier solution to create portable multitouch presentations that do not require programming skills while empowering design creativity.

Labège, France - June 23rd, 2010. IntuiLab, the global leader in surface computing software applications, today announced the availability of the **IntuiFace Presentation 2.5**, the newest release of the first solution available on the market to help creative designers easily build rich and portable multitouch presentations without writing a single line of code.

IntuiFace Presentation consists of two components:

1. **IntuiFace Presentation Composer** for creating, without programming, a multitouch and tangible presentation by orchestrating your media using a set of predefined controls and transitions;
2. **IntuiFace Presentation Player** to run this presentation on any kind of Surface Computer including Microsoft® Surface® and many existing and upcoming Win7-enabled multitouch devices available on the market.

IntuiFace Presentation's 2.5 new features are:

For IntuiFace Presentation Composer:

- Fully redesigned intuitive User Interface,
- New Import command to automatically and very quickly create a new multitouch Presentation from an existing folder hierarchy of assets (pictures, videos, documents, etc.),
- Direct integration with Microsoft Expression® Blend for advanced style and animation editing,
- Direct launch of IntuiFace Presentation Player from the UI for fast Presentation preview and turn-around,
- New presentation creation presets for a wide selection of target multitouch devices.

For IntuiFace Presentation Player:

- Enhanced multitouch book with Unicode and multilingual support (i.e. Arabic, Cyrillic, Hebrew),
- New Timeline Space type to visually organize assets across a time period,
- New tag-based Navigation to get a presentation reactive to Microsoft Surface® tags,
- New timer-based Navigation, useful for example to trigger an idle screen.

More information is available at www.intuilab.com/solutions/intuiface-presentation. IntuiFace Presentation is available directly from IntuiLab, and runs on Windows, Microsoft Surface and Mac OS (via Boot Camp®). If you are a Digital Agency or a Digital Signage provider and wish to take advantage of the power of IntuiFace Presentation for growing your business, IntuiLab has a special program for you.

About IntuiLab

Founded in 2002 and headquartered in Toulouse, France, IntuiLab is a global leader in the design and development of surface computing-based applications. Through IntuiFace, the company's portable, scalable and extensible surface computing software platform, IntuiLab delivers and deploys applications that bring tangible returns on investment to its clients by providing their customers and users with a more natural, immersive and memorable interactive experience. IntuiLab is a Microsoft partner and has clients in a wide variety of industries such as retail, food and health, banking, aerospace and defense, telecoms and hospitality.
